OUR MISSION

Charles Evans Center, Inc. ■ A Federally Qualified Health Center (FQHC)

The mission of Charles Evans Center (CEC) is to provide high-quality, comprehensive healthcare to underserved community members with limited incomes including those with autism, learning and developmental disabilities, and behavioral and mental health concerns. Charles Evans Center’s unique approach to healthcare includes:

Our services aim to help improve the well-being of our local communities by ensuring community members don't have to postpone or forego medical services they need. With our sliding scale fees and commitment to offering affordable care, all members of our local communities can receive timely care for health issues, routine medical exams and tests for optimal health.

Overseen by culturally sensitive, credentialed healthcare staff, our patient-centered approach, high-quality primary and specialty services are provided regardless of a patient's background or ability to pay.

MESSAGE FROM THE CHAIRPERSON OF THE BOARD OF DIRECTORS

Due to the COVID-19 pandemic, the past 18 months have been a challenge for all healthcare facilities. The Charles Evans Center (CEC) has met this challenge thanks to the compassionate and courageous actions of CEC's administration and professional and support staff who continue to provide excellent healthcare to our patients.

In 2015 CEC opened its doors as a Federally Qualified Health Center (FQHC). Today CEC continues to fulfill its mission to provide access to high-quality and comprehensive medical, dental, and behavioral healthcare to improve the well-being and quality of life of individuals who have historically been underserved.

The CEC Board of Directors and CEC employees continue to work tirelessly to provide patients with the healthcare support essential to their current and future needs. In 2019 the Mellilo Center in Glen Cove joined the CEC family. This allowed CEC to expand outreach to additional underrepresented individuals and ensure medical and mental healthcare as well as a preventive healthcare approach for their well-being. There are now three locations where community members can access CEC healthcare—Bethpage, Glen Cove and Hauppauge.

The CEC Board of Directors recognizes its responsibilities to employees and patients and is committed to:

- providing a safe and welcoming facility environment,
- advocating for grant funding and other support opportunities to improve healthcare services,
- staying abreast of local, state, and national healthcare policies and requirements,
- encouraging the community to be engaged in our effort to ensure that CEC continues to attain best practices benchmarks now and in the future, and
- using data and evidenced-based practices to support evaluation of current operations and recommend future directions while remaining financially viable.

The Board of Directors is grateful for our patients, who entrust their healthcare to CEC, and for our employees, volunteers and benefactors. We look forward to our continued success through these partnerships.

Anne Emmerson EdD
Chairperson

“
Grateful for our
patients, who entrust
their healthcare to CEC,
and for our employees,
volunteers and
benefactors.
”

MESSAGE FROM THE EXECUTIVE DIRECTOR

A defining characteristic of the Charles Evans Center is that we provide ease of access to a range of high-quality medical, dental and behavioral health services. When visiting one of our health centers one will find a modernized facility and a welcoming environment that sets the stage for the expert and compassionate care to follow.

We are licensed by the NYS Department of Health, the NYS Office for Addiction Services and Supports (OASAS), and the NYS Office of Mental Health (OMH). We are also licensed and funded by OMH to provide mental health housing and to operate an Assertive Community Treatment (ACT) program.

Our health centers are located in Bethpage, Hauppauge and Glen Cove. At the Glen Cove site, a state-of-the-art health center is expected to be operational in the latter part of 2021. The services available at our health centers include the following:

- | | | |
|------------------------|-------------------------|---------------------------------|
| ■ Primary Medical Care | ■ Podiatry | ■ Addiction Services |
| ■ Dentistry | ■ Psychiatry | ■ Behavioral and Mental Health |
| ■ Neurology | ■ Social Work | ■ Health Home Care Coordination |
| ■ Gynecology | ■ Psychological Testing | |

To access any of these services one only needs to contact our call center at: [516-622-8888](tel:516-622-8888), and an appointment can be made for any of our health centers. In addition to providing in-office health services, oftentimes the care can be provided via telehealth.

An application for mental health housing can be attained by contacting Laura LaSala, Director of Community Living Programs at [516-676-2388](tel:516-676-2388) ext. 136, and to receive ACT services one can contact Eileen Kovach, Team Leader at [516-676-2388](tel:516-676-2388) ext. 130.

With ease of access being our trademark, it is also possible to contact us via email at cecinfo@charlesevanscenter.org and you can be assured of a prompt reply.

Finally, I wish to emphasize that while we talk about those we serve, at the Charles Evans Center we are very attuned to the fact that we too are patients, we too find ourselves and our loved ones in need of high-quality medical, dental and behavioral health care. In other words, while we possess a wealth of resources, what truly defines us is that we view care delivery through the eyes of our clientele. We take to heart the fact that each person served is someone's family member or loved one, and if one feels they are forgotten we do all we can to prove otherwise. So, please feel free to contact us if you need any medical, dental or behavioral health service, as you can be assured that when one comes to the Charles Evans Center they will receive Care with Excellence and Compassion!

James R. Dolan Jr., DSW, LCSW
Executive Director

“
We take to heart the fact that each person served is someone's family member or loved one.
”

CHARLES EVANS CENTER EXPANDS ITS FOOTPRINT WITH SERVICES IN GLEN COVE. ARTICLE 28 MEDICAL CLINIC EXPANSION

As a leading provider of health care services, the Charles Evans Center (CEC) has expanded its reach to north Nassau County with the merger of the Melillo Center for Mental Health. The Melillo Center was licensed and funded by the New York State Office of Mental Health (OMH) and the Office of Addiction Services and Supports (OASAS), and headquartered in Glen Cove for over 40 years. The Center was also funded by the Nassau County Office of Mental Health, Chemical Dependency and Developmental Disabilities.

The Charles Evans Center of Glen Cove continues to provide outpatient mental health and chemical dependence clinic services along with outpatient Assertive Community Treatment (ACT), which is a multidiscipline, mobile mental health treatment team – delivering services directly to recipients in their home environments. CEC Glen Cove also provides mental health residential services including Community Residences, Emergency/Respite Housing and Supportive Housing in Nassau and Suffolk Counties. CEC is proud to announce that an Article 28 NYS Department of Health (DOH) licensed primary healthcare clinic will be added to the services offered at CEC Glen Cove. This addition will provide an integrated outpatient model which will address the medical and mental healthcare needs of under-represented people in Glen Cove and surrounding communities.

Sarah Silverstein, LCSW-R of the Charles Evans Center

2ND ANNUAL BRAIN HEALTH CONFERENCE ON PROMOTING BRAIN HEALTH

A Virtual Event held in August 2020 The conference was held live online via Zoom and featured a keynote presentation, “What is Brain Health? Looking Towards the Integration of Neuroscience and Psychology” by Dr. Constantine “Charlie” Ioannou, the Chairman of Psychiatry and Behavioral Health Services at Nassau University Medical Center. Ioannou spoke to more than 130 participants about Mental Health being an integral part of Brain Health, and how understanding the complex interplay between the psychological/ social aspects, resilience, and spiritual aspects of the individual is essential to our understanding “Brain Health”.

Workshops for participants were also presented. Oliver Medvedik, PhD, Director of The Maurice Kanbar Center for Biomedical Engineering at The Cooper Union for Advancement of Science and Art, presented on “Non-Pharmacological Interventions in Dementia Treatment”. Medvedik spoke about recent interventions in the treatment of dementias including transcranial direct current stimulation, light and sound therapies and diet, along with underlying biological mechanisms. In addition, Sarah Silverstein, LCSW-R, of the Charles Evans Center, presented on “Dialectical Behavioral Therapy: Skills for Improving Our Lives”. Silverstein provided an overview of the history of dialectical behavioral therapy (DBT) and what populations it is used to treat. The conference was coordinated in conjunction with the Mental Health Association of Nassau County.

CEC AWARDED PROGRAM INNOVATION AND FISCAL SUSTAINABILITY GRANT

CEC was awarded the Program Innovation and Fiscals Sustainability Grant by the Office of Addiction Services for Outpatient Programs – to assess program workflows and practices that impact access, engagement and retention, medication access and ongoing management to improve and adapt practice to improve performance. The funding supported Article 32 in developing standards, analyzing performance to support continuous quality improvement and fiscal modeling to increase knowledge about cost of services, cost of episodes of care, and services to support improvement in care.

CEC RECEIVES ACCREDITATION BY PATIENT CENTERED MEDICAL HOME

Charles Evans is **PCMH** Recognized – PCMH Accreditation is a measured continuous quality improvement program that incorporates patient-centered practice guidelines. Patient-centered programs and value-based care are advanced by the Institute of Medicine and the nation’s leading primary care physician societies. The Compliance Team’s plain-language Safety-Honesty-Caring Quality standards focus on day-to-day practice operations. Special emphasis is given to health maintenance, preventative screening, multi-specialty medical services, patient experience reporting, and bench-marking.

CEC QUALITY IS RECOGNIZED BY THE U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

Insured through the Federal Tort Claims Act FTCA – High quality care and standards at CEC have been recognized by the U.S. Department of Health and Human Services, Health Resources and Services Administration, Bureau of Primary Health Care. CEC continues to meet the requirements to maintain FTCA status and have been granted FTCA coverage. CEC receives its medical malpractice liability protection through the Federal Tort Claims Act (FTCA). Under this Act, Charles Evans Center employees are considered Federal employees and are immune from lawsuits, with the Federal government acting as their primary insurer.

CEC'S ADDICTION TREATMENT PROGRAM IS RECOGNIZED BY ATLAS

Article 32 – Addiction Treatment Clinic is recognized for its participation in **ATLAS** Addiction Treatment Locator, Analysis, and Standards Tool – a quality measurement system for addiction treatment facilities. It signifies a commitment to quality improvement and transparency across the field, and the importance of empowering patients to make informed care decisions.

CEC'S PROJECT HOPE

CHARLES EVANS CENTER AWARDED GRANT TO PROVIDE CRISIS COUNSELING AND OUTREACH TO INDIVIDUALS AND FAMILIES IMPACTED BY COVID-19

The coronavirus pandemic has played havoc with the psychological and emotional well-being of the general population. Daily reports of infection rates, hospitalizations and deaths, along with the effects of quarantine, social distancing and economic loss, have led to an increase in reports of depression, anxiety, isolation and thoughts of self-harm. The Charles Evans Center is grateful to announce that the organization has joined the NY Project Hope initiative to establish a Crisis Counseling Program to provide mental health assistance to individuals and families affected by coronavirus.

NY Project Hope Emotional Support is a program of the New York State Office of Mental Health funded by the Federal Emergency Management Agency (FEMA) and administered by the Substance Abuse and Mental Health Services Administration (SAMHSA). With this grant assistance, CEC developed multiple teams of trained and knowledgeable professionals and paraprofessionals to provide crisis counseling and outreach to the community. Each team consists of a Team Leader, who is a licensed human service professional, and several licensed counselors connect with people via telehealth applications to provide crisis counseling, emotional support, coping strategies, self-care, psycho-education and guidance. Each team also includes several outreach workers who will get the word out in a non-stigmatizing manner through social media and hands-on visits to locations frequented by potential participants. In terms of privacy, talking with any of the counselors is free, confidential and anonymous.

Dr. Anne Emerson, CEC Board President, stated, “The pandemic has had a terrible impact on Long Island. I’m proud and grateful that our organization can offer this valuable service to the local community. I encourage all Long Islanders impacted by coronavirus to please call and speak with one of our counselors who understands what you are going through and can offer help.”

For assistance or further information, including employment in the program, please contact Charles Evans Center [\(516\) 622-8888](tel:5166228888) or Charles Evans Center - Glen Cove [\(516\) 676-2388](tel:5166762388). For the NY Project Hope Emotional Support Helpline please call [\(844\) 863-9314](tel:8448639314).

OVERCOMING COVID-19 CHALLENGES

In March of 2020, virtual visits became available in Primary Care, Neurology, Dentistry, Psychiatry, Addiction Treatment, and Mental Health. We were able to deliver virtual care through Zoom’s healthcare platform with secure text messaging, live chats, video calls and provide personalized treatment plans to patients that were remotely monitored and individually supported. Our telehealth services provided continuity of care during a time of crisis. The CEC team transformed service delivery and fast-tracked new billing codes and policies in days, thanks to the hard work and dedication of amazing providers, support staff and leadership! The rapidly evolving and unprecedented challenges of COVID-19 required us to think differently as we reshaped our approach to everything from workforce management to care delivery models. The Charles Evans Center has once again demonstrated its commitment to care for our community. CEC’s rapid response to COVID enabled virtual care and kept us connected to the individuals we serve. During the height of the pandemic we remained opened for in-person care due to our strict infection control policies which exceeded CDC guidelines to ensure the safety of our patients and staff.

In April 2020, we performed antigen testing for approximately 300 ALCD patients outside in a tent.

Our nursing staff are trained on the process of storage, administration and documentation for the COVID Moderna vaccine.

We began administering COVID vaccines to employees, first responders, frontline workers and our patients on 12/30/2020.

CEC BOARD PRESENTS EXEMPLARY SERVICE AWARD IN MEMORY OF BELOVED BOARD MEMBER

At this year's virtual employee holiday party in December, longtime employee Shirley Renae McCall, RN was presented with the CEC Board of Directors' Dr. Richard Dibble Exemplary Service Award. The CEC Board created the award two years after the passing of Dr. Richard Dibble, a beloved CEC Board Member since 2015 and longtime ACLD Board of Trustees member. The award recognizes employees who have demonstrated exemplary commitment to CEC's mission to improve the health and quality of life of patients. Mrs. McCall has innovatively adapted practices to ensure that throughout this pandemic the well-being and safety of our clients and staff has surpassed CDC guidelines.

THE CEC COMMUNITY RESIDENCES MAINTAINED HEALTH, HOPE AND INSPIRATION YEAR ROUND!

The residential congregate care programs held a variety of events throughout the year to foster engagement, wellness and fun.

In the Spring, Glen Cove Residence hosted a Tie Dye Day!

In the Fall, Glen Cove Residence held a Halloween party and their 3rd Annual Resident Appreciation Dinner. Glen Cove staff prepared a delicious meal for the residents to show gratitude for their team work and positive presence within the residence.

Our East Hills Residence also celebrated the summer with Corn Hole days and Barbeques.

During the winter holidays East Hills Residence held a holiday celebration with a hot cocoa bar and decorated ginger bread cookies.

NEW PROGRAMS AND SERVICES

ASSERTIVE COMMUNITY TREATMENT (ACT) TEAM

Assertive Community Treatment (ACT) provides an integrated set of evidenced-based treatment, rehabilitation, case management, and support services delivered by a mobile, multidisciplinary mental health treatment team using a person-centered, recovery-based approach. The purpose of the ACT team is to deliver comprehensive and effective services to individuals who are diagnosed with severe mental illness and whose needs have not been well met by more traditional service delivery approaches. The multidisciplinary treatment team is comprised of mental health professionals which include Social Workers and Mental Health Counselors (who have a specialty role on the team), Psychiatrist, Psychiatric Nurse Practitioner and Registered Nurse. The Charles Evans Center ACT Team has the capacity to provide services for up to 68 patients.

ADULT CARE MANAGEMENT – HEALTH HOME

Charles Evans Center partnered with Northwell Health Solutions, the state-designated lead health home provider for Nassau, Suffolk and Queens Counties, to provide Health Home (for adults) care coordination services. Charles Evans Center's Care Coordination program provides person-centered care that incorporates social service provision, behavioral health care, self-management support, and family engagement alongside primary and specialty medical care. Care Coordination is the comprehensive assessment of health home members' needs with an individual care plan carried out through specific interventions designed to provide coordinated, efficient, quality care to achieve the care plan goals and optimize health outcomes for people with complex health issues and needs, to assist recipients to achieve their stated goals and objectives, and to succeed within their community plan of care.

CRISIS RESPITE – SAFE HARBOR

Is a short-term residential setting with specialized supports for adults 18 years or older who are experiencing a mental health or housing crisis, providing 24-hour supervision in a warm safe environment. Safe Harbor's goal is to provide emergency/respice housing and to work closely with case management to secure housing to individuals with a diagnosed mental illness who are in a crisis situation. We support the individual's confidence and skills to improve their ability to safely work through their crisis and improve their living situation.

SUPPORTIVE HOUSING - INDEPENDENT LIVING PROGRAM

CEC provides over 150 permanent, safe and affordable residential placements in our Supportive Scattered-Site Housing Program. This program offers rental assistance and support services to mental health consumers who are ready to live independently. In this program, individuals live in apartments or houses throughout Nassau and Suffolk Counties. Housing Case Managers meet with individuals several times per month to work on the individual's goals and assist with coordinating care and services. Specialized support services have been developed for families and for consumers who are homeless and/or who are deaf.

ENHANCED FORENSIC SUPPORTIVE HOUSING – INDEPENDENT LIVING PROGRAM

Provides housing and supportive services to adults with behavioral health and forensic involvement. Participants receive coordinated case management support to help stabilize their lives. The staff has an understanding of the criminal justice system, supporting mandated clients (including working with parole), trauma-informed care for justice-involved individuals; reducing recidivism and promoting recovery and the clinical impact of incarceration. The program offers an innovative treatment and recovery approach which integrates behavioral health, substance abuse, criminal justice and other service components in ways that holistically address the complex needs of this population.

MOBILE RESIDENTIAL SUPPORT TEAM (MRST)

Charles Evans Center provides an enhanced level of support for individuals in New York State Office of Mental Health scattered site supportive housing. The support team will consult with the tenant, his/her treatment team and the Health Home to develop an individualized support plan. A Charles Evans Center team member is available 7 days a week to provide in-home support services to help residents progress towards personal recovery. After six months of service, resident progress is formally evaluated to determine the need for continued service or lessened support. Charles Evans Center MRST can serve adults in supported housing located in Nassau County.

SUPERVISED COMMUNITY RESIDENCES – TRANSITIONAL HOUSING PROGRAM

CEC provides three single site community residences. These residences provide group living for adults with on-site staffing, 24 hours a day, 7 days a week. Services include: medication monitoring, symptom management, rehabilitative activities and community integration including transportation training, banking, shopping, socialization, linkages to psychiatric and medical services in the community, linkages to employment and/or educational services, etc. These services and supports provide residents with skills to move on to more independent housing opportunities. Community residences are located in Glen Cove, Glen Head and East Hills. Our CR program has the capacity for 35 recipients.

In 2020 there were seven discharges, five successfully transitioned to a higher level of care.

OUTPATIENT MENTAL HEALTH CLINIC

CEC Mental Health Outpatient Behavioral Health clinic is licensed by the New York State Office of Mental Health (OMH) and is committed to providing the highest quality care. We provide comprehensive mental health services including assessment, diagnosis, and treatment for people with mental health concerns, adjustment issues and those struggling with co-occurring mental illness and chemical dependency. The CEC MH Clinic served 178 unduplicated clients in 2019.

272 unduplicated clients in 2020 a 53% increase since 2019.

OUTPATIENT CHEMICAL DEPENDENCY CLINIC

CEC Chemical Dependency Outpatient Clinic is licensed by New York State Office of Alcoholism and Substance Abuse Services (OASAS) and is committed to improving our community's health and we are proud to offer a full spectrum of services for patients with substance use disorders. To address local needs in the opioid epidemic, we offer walk-in assessments, rapid access to outpatient programming, and expanded access to medication-assisted treatment. In 2019 the CD Clinic served 382 unduplicated clients.

In 2020, the CD Clinic increased the number of unduplicated clients by 2.4% and served 391 clients.

2020 QUALITY DASHBOARD

The Charles Evans Center is focused on providing high quality, equitable, and evidence-based health care across the health care continuum. Our quality targets are based on nationally recognized benchmarks and standards of care, with some close to or fully exceeding benchmarks identified by the Healthcare Effectiveness Data and Information Set (HEDIS) tool used by more than 90 percent of America's health plans to measure performance on important dimensions of care and service. Also, using Healthy People 2030 provides science-based, 10-year national objectives for improving the health of all Americans.

CEC INITIATIVES

INTEGRATED CARE

As part of our mission to treat the “whole” patient, all clinicians work collaboratively with our Behavioral Health department to identify patients who may show criteria for a depressive disorder. In 2020, we conducted 1,500 Behavioral Health Screenings for depression with over 941 referrals to the Behavioral Health department for additional assessments.

HEALTH AWARENESS INITIATIVES AND EDUCATION PROGRAM

In addition to educating our providers and the community about COVID-19 our goal is to continuously raise awareness about important health issue and provide education on disease detection, a vital step which leads to improved quality of life. By implementing awareness-raising and health promotion strategies as an integral part of disease prevention and wellness our goal is to support healthy lifestyles while undertaking various preventive measures.

Each month CEC is committed to effecting positive change in our community's health. We offer a wide variety of educational materials and resources to support our community's awareness through our healthcare providers, as well as through our social media pages and website.

In 2020 each month CEC provided COVID-19 updates and brought awareness and resources around the following topics:

January

National Drug and Alcohol Facts

February

Heart Awareness

March

Health and Nutrition Awareness

April

Alcohol Awareness

May

National Stroke Awareness

June

Alzheimer's and Brain Awareness

July

UV Safety Awareness

August

Depression Awareness

September

Emergency Preparedness

October

Breast Cancer Awareness
Down Syndrome Awareness

November

Cervical Health Awareness

December

National Handwashing Awareness

Below are the number of employees broken down by FT/PT/Per Diem.

Part-Time: **40**

Per Diem: **13**

Learning Paths

In 2020 CEC hosted 12 interns in Articles 31/32 in the disciplines of Social Work, Mental Health Counseling, Creative Arts Therapy and Psychiatric Nurse Practitioner. 6 Nursing students performed observations in Bethpage.

2020 was another year where our staff shined. Tremendous effort of the CEC residential staff to work through the pandemic while being short staffed.

OUR TEAM

In 2020 our team was comprised of 138 employees, a 29% increase from 2019. New employees brought us additional professional talents, including Board Certified Registered Art Therapist, Licensed Creative Arts Therapist and Licensed Mental Health Counselors.

OUR PARTNERSHIPS

Charles Evans Center is devoted to the development of our future professionals. We currently work with the following educational institutions:

Creative Arts Therapy
Graduate Psychology Program

Social Work

Mental Health Counseling
Creative Arts Therapy

Mental Health Counseling

Nursing
Master and Bachelor Social Work

Masters General Psychology, Masters
in Behavioral Neurosciences

Master of Arts in Forensic
Mental Health Counseling

Social Work

Undergraduate Psychology

Social Work

Mental Health Counseling

Community Health Worker Program

GOALS FOR 2021

SUPPORT

our patients' efforts to improve on their health outcomes and goals. Improve HEDIS and move closer to Healthy People 2030 goals.

SEEK

new grants to support key programs and services that will build a stable foundation for the organization, while forging ahead to new opportunities.

IMPROVE

health outcomes for patients and exceed national benchmarks.

2020 STATEMENT OF FINANCIAL ACTIVITIES

■ Patient Services Revenue:	■ Grants:
\$10,072,503	\$1,543,132
■ Contract Income:	■ Other Revenue:
\$4,088,434	\$22,705

■ Program Services:
\$13,590,150
■ General and Administrative:
\$1,505,090

WAYS TO GIVE

Charles Evans Center receives most of their support through government funding and grants. The support we receive from caring donors like you allow us to go above and beyond. We accept your support graciously and we are proud of our ability to efficiently use our resources to promote healthier lives for individuals who have historically been medically underserved, and their communities.

CEC accepts gifts of cash and donations can be made online at: www.charlesevanscenter.org/donate.

Donations can also be mailed to: Charles Evans Center, Attn: Development Office, 807 S. Oyster Bay Road, Bethpage, NY 11714. Please make checks payable to Charles Evans Center.

Explore our website to read about the many ways you can support our work in providing specialized care to individuals with developmental disabilities, and individuals recovering from mental health and substance use concerns and all individuals, regardless of their ability to pay.
